

Infinity, the axiom of choice, and mediacy

Julia Kameryn Williams (Bard College at Simon's Rock)

Abstract: What does it mean to be finite? To be infinite? Why does the axiom of choice come into the picture? What even is the axiom of choice? What weird and exciting things happen when we try to generalize the ideas which answer these questions? We will discuss these questions and more.

- September 24th
- 2:40pm
- Fisher Science Building
- Room 201
